“Software is very user friendly and effective both for the administrators and for the daily users.

We have a very positive experience with SAI360. By using B Wise we improved our control framework and we are able to monitor our controls in a very efficient way.”

– Administrator
Mid market

“Good customer relationship, integrated GRC tool.

The system and services provided quick wins and longer term adoption throughout the organization.

And the integrated...reporting engine is a great reporting tool which supports automation.”

Prompt professional services when needed.

I use Compliance 360 for policies and I love that all actions are tracked through the audit trail and the history option. I also appreciate how easy it is to navigate the program and all the reports available to me. Customer service responds to my requests very promptly and usually is able to help or give me guidance within a short time of contact.”

Long term customer.

I best like the flexibility of the system — so that we can configure it to what meets our needs.

One big win for us over and over is the ability to initiate approval processes for various business needs that integrates flexible methods of interaction with the system that suits the executive’s style.”

GRC Platforms

A flexible tool that is helping us manage work and deliver results.

For the GRC tool, the modules are very comprehensive. It is very easy to customize and maintain. New features are always being evaluated and rolled out per customer feedback. The SAI360 team is a pleasure to work with."

Ethics and Compliance Learning

Great eLearning.

SAI360 has consistently achieved positive results for my Company bringing our employees a high level of compliance training. The e-learning provided, always dynamic and well-focused on our needs, have more than achieved the Company goals.

Now people have more knowledge about ethics and compliance topics and they got it through a few short SAI360 courses."

Easy to partner with...

What I like best of all is the ability to 'customize-lite' these standard modules, adding in text related to our policies and culture, which increases the relevance for our employees. I also like the short 'teaser' communications we use prior to launching a more fulsome ethics training module."

– Liam W.

“Overall pleasant user experience.

We got rid of numerous Excel spreadsheets after we started using this system to collect EHS data.

We have huge variance in Global users requirements but with SAI360 we are able to configure the software at all levels that fits every culture.”

– Administrator, Engineering

“EHS360 changed our safety culture.

Very little training for end users is required. Once logged on, users find it easy to log safety issues of records.

Crazy that more businesses don't adopt this system as it is so easy to implement and adapt.”
